

Electromagnetic flowmeter WaterMaster

Our Product Introduction

for more products please visit us on psa-generators.com

Basic Information

Product Specification

- Accuracy: High
- Communication Protocol: HART, PROFIBUS, FOUNDATION Fieldbus
- Fluid: Gas, Liquid
- Installation Type: In-line, Insertion
- Material: Stainless Steel, Alloy Steel, Titanium
- Measuring Principle: Differential Pressure
- Output Signal: 4-20mA
- Pressure Range: 0-100Bar
- Process Connection: Flange, Thread, Sanitary
- Product Name: ABB Flow Measurement Products
- Product Type: Flow Measurement
- Range: Wide
- Temperature Range: 0-150
- Warranty: 1 Years
- Highlight: **abb electromagnetic flowmeter,**

Product Description

WaterMaster is the ultimate solution for flow measurement and management in sectors as diverse as water, waste water, sewage and effluent.

Overview

WaterMaster's performance adheres to the most stringent global industry standards and is certified to key international approvals. Proven in the toughest applications, its rugged, robust and buriable sensors eliminate the need of expensive meter chambers. Thereby, WaterMaster flowmeters provide a long, productive and maintenance-free asset life. Take advantage of its innovative and versatile attributes to achieve interoperability within a wide range of asset management systems.

Data

OIML R49 and MID approved

Superior control through advanced sensor design

Submersible and buriable installation options

Improved performance through digital signal processing (DSP)

Intuitive navigation and configuration

Speed, ease and security in the field

Detailed diagnostics for rapid decision making

Sensor size ranges: Full-bore FEV DN40 to 200 mm ($1\frac{1}{2}$ to 8 in.), FEW DN10 to 2400 ($\frac{3}{8}$ to 96 in.), FEF DN250 to 600 (10 to 24 in.) / reduced-bore FER DN40 to 600 ($1\frac{1}{2}$ to 24 in.)

Inner training, pre-shipment training, onsite commissioning, onsite training—Focus on detail and complete
