

HART Digital Positioner PositionMaster EDP300 Pneumatic Control Valve Positioner

Our Product Introduction

for more products please visit us on psa-generators.com

Basic Information

- Brand Name: ABB
- Model Number: EDP300

Product Specification

- Brand: ABB
- Type: Valve Positioner
- Customized Support: OEM, ODM
- Port Size: 1/4 -18 NPT
- Temperature Of Media: Medium Temperature
- Media: Gas
- Supply Voltage: 9--32VDC
- Used Range: 25 ... 120°
- Linearity: <0.4%
- Repeatability: <0.5%
- Hysteresis: <0.3%
- Highlight: **HART Digital Positioner,
edp300 Digital Positioner,
Pneumatic control valve positioner**

Product Description

Digital positioner PositionMaster EDP300

The PositionMaster EDP300 is an electronically configurable positioner with communication capabilities designed for mounting to linear or rotary actuators. Advanced performance 4 to 20 mA with HART

Overview

Our Product

The PositionMaster features a small and compact design, a modular construction, and an excellent cost-performance ratio. Fully automatic determination of the control parameters and adaptation to the positioner allow for considerable time savings as well as optimum control behavior. Because of its properties, the positioner is suited for even the most challenging operating conditions.

Data

General specifications:

- Stainless steel housing
- Non-contact position sensor
- High air capacity
- Operation with natural gas
- Extended diagnostics
- Graphical display
- Universal analog input
- Analog HART communication
- Easy plug in modules
- Worldwide Intrinsic Safety approvals
- Remote sensor version
 - Advanced vibration resistance 2 g, 300 Hz
 - Protection class IP 67
