## Product Description

### Digital positioner TZIDC-220

The TZIDC-220 is an electronically configurable positioner with communication capabilities, mounting to linear or rotary actuators. Standard performance, flameproof enclosure, with FOUNDATION Fieldbus.

#### Overview

The TZIDC-220 features a small and compact design, a modular construction, and an excellent cost-performance ratio. Fully automatic determination of the control parameters and adaptation to the final control element yield considerable time savings and an optimal control behavior.

#### Data

General specifications:

Worldwide approvals for Explosion Proof and Intrinsic Safety

FF device registration: IT campaign no. IT 016800, ITK-Ver. 4

Easiest commissioning and operation on site due to local operation and auto adjustment

Robust design and flexible in use with linear and rotary actuators
