

2600t Abb Pressure Transmitter Gauge Pressure Sensor 261GS

Our Product Introduction

for more products please visit us on psa-generators.com

Basic Information

- Brand Name: ABB
- Model Number: 261GS

Product Specification

- Customized Support: OEM
- Mounting Bracket: 316 Stainless Steel
- Supply Voltage Effect: 0.005% Span Per Volt
- Output Signal: 4~20mA
- Measurement Range: 0.1...0..100MPA
- Power Supply: 24VDC
- Operating Temperature: 40~85
- Electrical Output Signal: DC 0 ... 10
- Highlight: OEM 2600t abb pressure transmitter, ODM 2600t abb pressure transmitter, gauge pressure sensor 261gs

Product Description

Gauge pressure transmitter 261GS

The compact transmitter class for gauge pressure within the 2600T series. The reliable sensing system with the very latest digital technologies, provides a large turndown ratio of up to 20:1.

Overview

The compact, robust transmitter housing is made of 316 stainless steel as a standard. Due to its high corrosion resistance it can be used in a wide variety of process and ambient conditions without any problems.

The user friendly display allows simple and intuitive local transmitter operation. Full device support, including diagnostic / maintenance information is guaranteed via the Device Type Manager software used in either a stand alone or system engineering tool. The transmitter provides local zero and span adjustments even without display

Data

Base accuracy: $\pm 0.1\%$

Span limits: 0.3 to 60000 kPa; 1.2 inH₂O to 8700 psi

Output signal: 4 to 20 mA, HART

Conforms to SIL2 acc. to IEC 61508 / IEC 61511

Full compliance with PED Category III

 18626217683
