

## 2600t S261 ABB Pressure Transmitter Wireless Differential Flow Transmitter Diaphragm Seals

### Basic Information

- Brand Name: ABB
- Model Number: Seal line for 2600T

### Product Specification

- Customized Support: OEM
- Mounting Bracket: 316 Stainless Steel
- Supply Voltage Effect: 0.005% Span Per Volt
- Output Signal: 4~20mA
- Measurement Range: 0.1...0..100MPA
- Power Supply: 24VDC
- Operating Temperature: 40~85
- Electrical Output Signal: DC 0 ... 10
- Highlight: **s261 ABB Pressure Transmitter,  
2600t ABB Pressure Transmitter,  
ABB diaphragm seals for pressure transmitters**

## Product Description

### Seal line for 2600T pressure transmitters S261

The S261 seals are used in combination with 261 compact transmitter class, allowing gauge, level or absolute pressure measurements.

#### Overview

A wide range of remote seal types are available, which allows optimum design for each application without compromising performance.

Large selection of options, materials and fill fluids meeting nearly all process requirements.

All welded constructions - combine an economically feasible and technically sound solution ensuring total reliability at line pressure down to full vacuum.

Special designed remote seals for individual process solutions adding flexibility for most demanding services.
